INDUSTRIES, INC.

Solution creators for working environments™

Ergonomic Environments by Design

Adapting the Workplace

AFC Industries has made a commitment to creating adaptable working environments for people who interface with technology.

As the integration of computer networks and technical equipment has become commonplace in the medical community, AFC has created a viable means with which humans can make effective use of these tools.

AFC understands the importance of countering the negative effects of computer use. The human factors involved are implementation issues, effects on the

human body and fears of monotonous work due to redundancy. Throughout our latest medical catalog you will find a

range of products that will accommodate your needs for better efficiency, productivity and stress relief. Whether you and your staff needs access to electronic patient records remotely (see page 36 — PC Cart™) or you have realized your stationary workstation is counter-

intuitive to your body's needs (see page 6 — Interactive Workstations), we offer the best solutions to adapt your workplace.

Interactive Workstations help adapt your working environment

As stated on www.HealthyComputing.com, "Using your computer can be a pain in the neck — literally. If your monitor's too high, you may be tilting your head to view it, causing headaches or neck pain".

Our interactive workstations allow adjustment in order to adapt to every user's individual needs. Some of our workstations' surfaces are specialized to not only move up and down but also tilt; some of our monitors are also designed to move electronically (both up/down and forward/back). These features help in reducing the strain caused by stationary workstations.

Deluxe Ergo Tier Cart™ 8

Ergo Tier Cart™ 12

Dual Tier Cart™ 18

Single Tier Cart™ 22

Deluxe Ergo Tier Cart™

The **Deluxe Ergo Tier Cart™** is AFC's flagship ergonomic workstation, making adjustment of the cart's flexible features virtually effortless. At the touch of a button, you can control the work surface's tilt (with a 15° range of motion) and height, accommodating both seated and standing positions.

This cart combines an adjustable work surface and flat panel monitor platform with a privacy partition.

The **Deluxe Ergo Tier Cart™** is equipped with a full range of accessories to ensure the ultimate in reading safety, comfort and convenience. A unique LED backlight provides ambient lighting, further reducing eye strain for people who spend long hours in front of the monitor. For added convenience, an optional pop-up data and built-in USB port unit enables users to connect easily and use almost any digital or electronic device while remaining seated.

Even with all its advanced features, the unit is simple to relocate. The workstation's cable management keeps wires neat and unobtrusive, and heavy-duty locking casters facilitate easy movement.

Electronic Adjustment:

- SURFACE HEIGHT
- MONITOR HEIGHT
- SURFACE TILT
- FOCAL LENGTH

Features and Benefits

- Cold-rolled 11-gauge steel frame with epoxy-powder-coated finish
- Particle-board-core top with your choice of high-pressure laminate finish edged with bumper molding
- Electronic adjustment of work surface height and tilt
- Electronic adjustment of monitor platform height and focal length (forward/backward motion)
- Multiple colors available (for standard colors, see page 87)
- Four-inch casters (two of them locking)
- Glides and additional accessories available (see page 76)

Specifications

- Work surface width: 60", 66", 72", 84", 96"
- Work surface depth: 30", 34", 36"
- Height from the floor:
 - Work surface: 28" to 47"
 - Monitors: 38" to 57"
- Custom sizes available

Optional

- Metal partition fixed to the workstation
- Full or split bottom shelves
- Adjustable ambient LED lighting with dimmer switch
- Built-in fans
- Pop-up data ports and a built-in USB hub embedded in the work surface

LCD Monitor Arms on telescopic drives with electronic adjustment of monitors' height and focal length

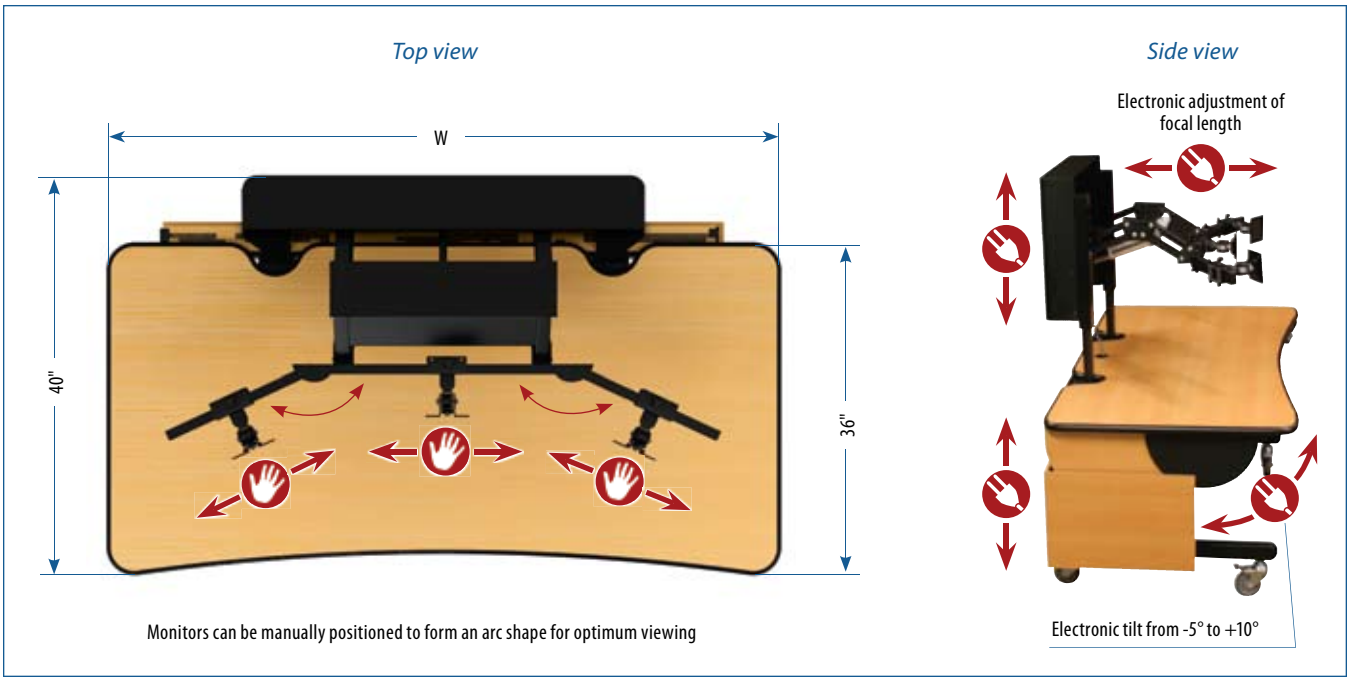

Adjustable LED backlight with dimmer switch

Pop-up units include Ethernet network and parallel ports as well as standard AC power outlets and can be customized to a site's particular needs.

Separate USB units include four ports, so you can easily connect and use almost any digital device while remaining seated.

Note: We offer partitions that can be free-standing (pic. on the right) or fixed to the floor or cart (see page 79).

- A. Deluxe Ergo Tier Cart™ 60"W x 36"D:**
- LCD Monitor Arms on telescopic drives # AFCERGO03

Note: Our AmbiTask Light Combo can be controlled with independent dimmer switches for total operator control of workstation lighting.

*Ergo Tier Cart™ EFX 72"W x 30"D
(top shelf and shown accessories are optional)*

Seated position

Ergo Tier Cart™

Our Ergo Tier Cart™ has independent, electronic height adjustment of the work surface and monitor platform. The monitors can be retracted toward and away from the user, either manually or electronically.

Ergo Tier™ includes a full range of accessories to ensure the ultimate in comfort and convenience. Cable management keeps wires neat and unobtrusive, while dimmer-controlled task lighting illuminates the workspace at the desired intensity, reducing eye strain and monitor glare. Adjustable phone and dictation arms keep the equipment within easy reach, while leaving work surfaces clutter-free.

Other useful features include CPU/UPS holders, a sturdy footrest to ease back strain, and even a metal cup holder positioned to avoid spills. Four-inch locking casters facilitate easy movement.

Standing position

Electronic Adjustment:

- SURFACE HEIGHT
- MONITOR HEIGHT
- FOCAL LENGTH (OPTIONAL)

Features and Benefits

- Cold-rolled 11-gauge steel frame with epoxy-powder-coated finish
- Particle-board-core top with your choice of high-pressure laminate finish edged with bumper molding or T-molding
- Electronic adjustment of work surface height
- Electronic adjustment of monitor platform height
- Electronic or manual adjustment of monitor platform focal length (forward/backward motion)

I. The JW Treadmill Desk™ 83"W x 56"W x 21"D x 21"D:

- AFC Industries, with feedback from our customers, designed this ergonomic console that accommodates a variety of exercise devices, like treadmills, exercise bikes, or a stair stepper.
- Custom work surface shape
 - LCD Monitor Arms on telescopic drives # AFCERGO05

Dual Tier Cart™ 48"W x 36"D

Dual Tier Cart™

The **Dual Tier Cart™** is ideal for professionals who require two independently adjustable surfaces to perform their tasks. With the simple touch of a button, the **Dual Tier™** lets you adjust the height of the monitors and work surfaces from a seated to a standing position.

In its bifocal position, the monitors are lower than the work surface, ensuring a comfortable viewing angle. This flexibility delivers optimum body positioning and comfort.

Why adjust yourself to your workstation when the **Dual Tier Cart™** adjusts to you?

Optimizing your mobile computing needs

"Notebook computers were originally designed as a temporary solution — a short-term replacement for the traveler's desktop computer. But as they improved, laptops became many people's primary (and sometimes only) computer. Companies have been finding ways to make them smaller and more portable ever since, and laptops are now a staple of business and educational computing," as noted in www.HealthyComputing.com.

AFC recognizes the importance of the laptop to the medical field and the critical need for movable computing carts. We have placed a lot of thought into the ergonomics of mobile computing, not only for laptops but for regular PCs, in order to make them adaptable as well as space-saving.

Telescopic Cart™

The AFC Industries **Telescopic Cart™** is designed to accommodate tight spaces; the work surface is electronically height-adjustable to enhance comfort and ease of use, whether the operator is seated or standing.

Mobile on stable locking casters, the strong and durable **Telescopic Cart™** can be stationed wherever needed and makes adding an extra workstation easy. Available in nine width and depth combinations, the cart can accommodate up to two flat panel or CRT monitors.

All sizes are customizable with grommet-mount or clamp-style monitor arms, multiple laminate finishes and colors, keyboard arms and trays, and larger casters for two additional inches of height.

Electronic Adjustment:

- SURFACE HEIGHT
- SURFACE TILT (OPTIONAL)

Features and Benefits

- Cold-rolled 11-gauge steel frame with epoxy-powder-coated finish
- Particle-board-core top with your choice of high-pressure laminate finish
- Chemical-resistant phenolic top and bottom surfaces available
- Work surface is electronically height-adjustable with optional electronic tilt
- Multiple colors available (for standard colors, see page 87)
- Four four-inch casters (the front two are locking)
- Glides and additional accessories available (see page 76)

The low profile of the PC Cart™ allows one to get closer to the patient's bedside

Features and Benefits

- Designed to hold laptops, desktop computers, and small instruments; ideal for use in any space-limited locations
- Built exclusively from cold-rolled steel with epoxy-powder-coated finish
- Pneumatic or electric height adjustment
- Flat-panel monitor mount VESA (100/75)
- Retractable keyboard tray and mouse tray
- Optional CPU/UPS holder available
- Standard color — Textured Gray
- Multiple colors available (see page 87)
- Four rubber or plastic casters (the front two are locking)
- Additional accessories available (see page 76)

Specifications

- Rectangular base size: 20 ½"W x 24"D
- Work surface size: 20"W x 19"D
- Keyboard tray size: 19"W x 8 ½"D
- Height of work surface from the floor: 28 ½" to 39"

- Monitor Arms # AFC16
- Locking drawer
- Keyboard arm and tray with retractable mouse tray
- Back modesty panel
- Six accessory hooks
- Isolation transformer enclosure with lock

PC Cart™

(Point of Care Cart)

Designed for maximum flexibility and streamlined movement, our **PC Cart™** enables people to bring advanced computer technology to any location. The **PC Cart™** features a small 20 ½" x 24" footprint and large casters for easy movement. It is height-adjustable to enable computer use while the user is standing or seated. For maximum mobility, the cart can accommodate a battery power source and features a retractable keyboard and mouse tray. The cart's all-metal body enables disinfection and clean-room use.

The **PC Cart™** comes in three different configurations — Standard, Dual, and Deluxe. **Standard** and **Dual PC Carts™** have pneumatic height adjustment, while the **Deluxe PC Cart™** features electronic height adjustment. The **Dual PC Cart™** enables independent movement of two surfaces; the top surface can be used as a laptop platform to accommodate various users.

M² Computing Cart™

Mobile/Meeting Cart

As computer technology becomes an integral part of the workflow in most businesses, the need for easy, convenient computer access has also grown. Our **M² Computing Cart™** enables strategic placement of a computer and related technologies wherever needed to streamline access. At the same time, this mobile yet stable cart is designed to support a full range of advanced user features and large-scale hardware.

The **M² Computing Cart™** accommodates monitors with up to a 46" viewing area allowing it to tilt from -5° to +15°. The cart has built-in cutouts for wire management and holes for height adjustment of all components.

Features and Benefits

- Fits flat screens 23" – 46" with mounting pattern up to 18"W x 12.75"H
- Monitor mount tilts from -5° to +15°
- Mobile yet stable
- All components are individually adjustable in increments of 1"
- Retractable keyboard tray
- Built-in cable management
- Standard colors — Textured Gray and Black
- Multiple colors available (see page 87)
- Four-inch casters (the front two are locking)
- Glides and additional accessories available (see page 76)

Specifications

- CPU compartment (front or rear mounted) size: 24"W x 8"D x 15"H
- Footprint: 30"W x 30"D
- Overall height from the floor: 60", 65"

Optional

- Double-monitor holder on single track
- Adjustable CPU holder front- or rear-mounted (3 ½" - 8 ½"W, 13" - 25"H)

Front view

Back view

The M² Computing Cart™ provides a mobile display wherever it is needed, perfect for both public spaces and meeting rooms.

Upright Cart™

The **Upright Cart™** is a space-saving, mobile workstation that accommodates a computer, monitor, keyboard and mouse, as well as a utility shelf that can hold battery pack to provide flexibility and efficiency in moving among rooms and departments. The **Upright Cart™** is designed for comfort and efficiency, with a slim profile that allows for effortless height adjustment of the CPU, monitor and keyboard in 2-inch increments.

The VESA-compliant monitor holder can be adjusted to support both portrait and landscape views and tilted to avoid glare, while the keyboard/mouse tray is foldable and retractable for easy transport.

Foldable & retractable keyboard tray with slide-out mouse tray

Features and Benefits

- Aluminum track: 56" long
- All components are individually adjustable in increments of 2"
- Safety stopper at both ends
- Spring-loaded locking mechanism for simple and easy height adjustment
- VESA-compliant monitor holder that can be adjusted from portrait to landscape views and tilted horizontally or vertically for optimum view
- Foldable and retractable keyboard arm and mouse tray
- Adjustable CPU holder (3 ½" - 8 ½"W, 13" - 25"H)
- Color: Textured Gray
- Multiple colors available (see page 87)
- Four-inch casters (two of them locking)
- Glides and additional accessories available (see page 76)

Optional

- Double monitor holder on single track
- UPS holder
- Mouse holder

Pole Cart™

The compact size and adaptable nature of the Pole Cart™ makes it highly useful in a variety of applications and perfect for tight, high-traffic areas. It easily moves a computer system from one room to another and supports up to two flat-panel monitors, a keyboard, and a CPU. The Pole Cart™ can be adjusted from a seated to a standing position.

Features and Benefits

- Steel pole with built-in wire management (see the bottom right picture)
- Available with square metal base or five-prong metal base
- All individual components are height-adjustable and can be rotated 360 degrees around the pole
- Pole finish:
 - Mirror-finished, chrome-plated or
 - Multiple colors available (for standard colors, see page 87)
- Two-inch or four-inch casters (two of them locking)
- Additional accessories available (see page 76)

Specifications

- Pole: 2" outside diameter
- Footprint:
 - Square base — 21"W x 21"D
 - Five-prong base — 26" diameter
- Overall height from the floor: 60", 73"

Carts & Racking Systems done right

AFC understands the need to implement ergonomics in the medical setting, which is why our carts and racking systems are designed and manufactured to fit the end users. Our on-staff engineers can customize carts and racking systems to meet your specific requirements. "Studies have shown that ergonomic improvements result in productivity increases, dramatic increases in worker satisfaction, and a significant decrease in workplace injuries." (www.HealthyComputing.com)

OmniBus™

The versatile **OmniBus™** provides maximum equipment support with a flexible profile that allows you to combine carts of different width and height.

Call us with your specific needs and we will customize an **OmniBus™** suited to your requirement.

Features and Benefits

- Cold rolled 11-gauge steel frame with epoxy-powder coated finish
- Particle-board-core top with your choice of high pressure laminate finish
- Customized ergonomic and standard work surfaces available edged with T-molding /bumper molding
- Work surface and shelves are height adjustable in one-inch increments
- Multiple colors available! (for standard colors, see page 87)
- 2" or 4" casters (two of them locking)
- Glides and additional accessories available (see page 76)

Specifications

- Width: each side can be either 18", 24", 30", or 36" wide
Any combination of these 4 widths is possible, so the total widths for the **OmniBus™** are:
36", 42", 48", 54", 60", 72"
- Depth: 18", 24", 30", 36"
- Height: up to 72" from the floor

A. OmniBus™ 36"W x 30"D x 42"H:

- Standard work surface shape
- Clamp-mount Monitor Arm # AFC02
- Keyboard Arm # KA6000 with custom Keyboard Tray
- Middle shelf
- Side shelf
- Unflushed bottom shelf
- Flushed bottom shelf
- 4" Casters # CAS-4 and # CAS-4B

B. Custom OmniBus™ 48"W x 14"D x 48"H:

- Standard work surface shape
- Keyboard Arm # KA6000
- Keyboard Tray # TR2000 with retractable Mouse Tray
- Two side shelves
- Common flushed bottom shelf
- Glides # GLID-ADJ

C. OmniBus™ 48"W x 36"D x 48"H:

- Top shelf
- Standard work surface shape
- Two clamp-mount Monitor Arms # AFC02
- Keyboard Arm # KA6000
- Keyboard Tray # TR2000 with retractable Mouse Tray
- Side shelf
- Unflushed bottom shelf
- Flushed bottom shelf
- 2" twin casters # CAS-2T and # CAS-2TB

D. OmniBus™ 48"W x 36"D x 48"H:

- Top shelf
- Standard work surface shape
- Clamp-mount Z-arm # AFCZ500-02
- Side Shelf
- Common flushed bottom shelf
- 4" casters # CAS-4 and # CAS-4B

E. OmniBus™ 48"W x 30"D x 54"H:

- Top shelf
- Standard work surface shape
- Side shelf
- Unflushed bottom shelf
- Flushed bottom shelf
- Casters # CAS-P and # CAS-PB

Keyboard arm # KA6000 allows the tray to tilt and pivot in any direction

Wall Mount solutions make the most of limited-space environments

AFC's wall mounts not only provide space-saving solutions but are designed and manufactured like all our other products, with ergonomic elements to meet the needs of the end user. Positioning and setting up computers correctly helps facilitate a safe, comfortable and adaptable working environment.

Wall Mount Solutions

i-Center™..... 68

Wall Mounts..... 71

Video Wall..... 75

i-Center™

The innovative, space-saving **i-Center™** — a wall-mounted workstation — enables computer access wherever needed without utilizing floor space. The **i-Center™** includes a fold-down keyboard tray with a damper for smooth operation and a VESA-compliant monitor holder. It accommodates any standard computer and turns empty wall space into a handy work area.

The **i-Center™** features a laminated front and side wall which can be specified to match room décor and mounts easily with grommet holes to allow cabling. It has a removable front panel with security screws to prevent theft. The **i-Center™** was designed to help make the most of limited space in today's busy environment.

Features and Benefits

- Removable front panel with security screws, preventing any theft concerns
- Fold-down keyboard tray with damper for smooth operation
- VESA-compliant monitor holder
- Grommet holes for cabling
- Laminated front and side wall to match your wall
- Multiple colors available (for standard colors, see page 87)
- Optional accessories include: CPU, mouse holder, scanner holder, cable management, lock
- Custom sizes available

Specifications

- Width: 27 1/8"
- Height: 25 1/2", 35"
- Depth: 6"
- Window size: 16"W x 12 3/4"H
- Keyboard shelf depth: 8"

▲ A. i-Center™ 27"W x 6"D x 25 1/2"H with holder for thin client PC and retractable mouse tray

B. i-Center™ 27 1/8"W x 6"D x 25 1/2"H with removable panel

C. Lockable i-Center™ 27"W x 6"D x 35"H with wall-mount CPU enclosure for small-form-factor PC and scanner holder

D. i-Center™ 30"W x 6"D x 42"H with matching wall-mount CPU enclosure

E. i-Center™ 27 1/8"W x 7"D x 25 1/2"H with wall-mount CPU enclosure # CPU-08

F. Lockable i-Center™ 30"W x 7"D x 42"H with matching wall-mount CPU enclosure and Z-arm Combo

Note: The Z-arm allows you to position your monitor at any viewing level, angle, and depth from the viewer.

G. Custom i-Center™ 22"W x 9"D x 32"H with Z-arm # AFCZ500-01

Wall Mounts

Wall Mounts are perfect for high-traffic spaces because of their compact design. This space-saving solution is also ideal for areas where multiple operators use a single computer workstation.

Our **Wall Mounts** enable you to adjust both keyboard and monitor height from a seated to a standing position.

Features and Benefits

- Aluminum track 56" long with mounting holes
- All components are individually adjustable in increments of 2"
- Safety stopper at both ends
- Spring-loaded locking mechanism for simple and easy height adjustment
- VESA-compliant monitor holder that can be adjusted from portrait to landscape view and tilted to avoid glare
- Foldable and retractable keyboard arm and mouse tray
- Adjustable CPU holder (3 ½"- 8 ½"W, 13"- 25"H)
- Multiple colors available (for standard colors, see page 87)
- Additional accessories available (see page 76)

Optional

- Horizontal or vertical positioning
- Double monitor holder on single track (see pic. C on page 72)
- Horizontal track for multiple monitors
- UPS Holder
- Mouse Holder

Electronic Adjustment:

UNIT HEIGHT

Three-row
Video Wall for 15 monitors

Video Wall

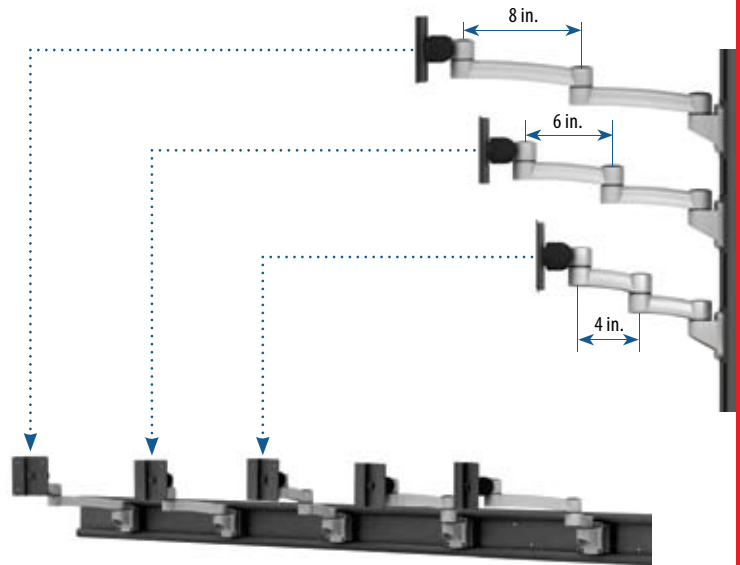

The **Video Wall** consists of one or more tracks for sliding the monitor arms from left to right, where every single arm allows tilting up-down and left-right. Z-arms give each monitor an ample range of motion, allowing you to position them in several different viewing arrangements.

Features and Benefits

- Aluminum track with mounting holes and safety stopper at both ends allows monitor holders to slide
- Horizontal or vertical mounting of tracks
- Z-arm monitor holders with extension, tilt, and pan motion; arms have varying length to provide parabolic shape for optimum viewing
- VESA-compliant monitor holder that can be adjusted from portrait to landscape views and tilted to avoid glare
- Combination setup allows horizontal and vertical adjustment of the monitors
- Monitor travels from 4" to 20" from the wall
- Multiple colors available (for standard colors, see page 87)
- Additional accessories available (see page 76)

Optional

- Monitor holders # AFC16, # AFC18, # AFC22 (tilt and pan only)
- Non VESA-compliant monitor holders available for larger flat screens

The outer monitor arms are longer than at the center, which lets you create a comfortable viewing arc. When laid out straight, the monitors can get as close as 4" to the wall.

The Video Wall's freedom of motion allows you to combine monitors of different shapes and sizes, in any arrangement, without gaps.

Accessories turn your workspace into a truly ergonomic environment

AFC Industries, Inc. has an entire division devoted exclusively to the accessories you need for every conceivable requirement, including mounting your monitors in an ergonomically correct manner; holding your beverage cups, dictation arms, and keyboard trays; lighting solutions for various rooms; cable management; and many others. Go to www.afcindustries.com/accessories for detailed specifications.

Accessories

Partitions 78

LCD Monitor Arms/holders.... 80

Partitions

Complete your workstation plan with AFC Partitions. These Partitions absorb sound and provide privacy. They also prevent interference from monitors or other light sources. They can be manufactured with a tinted or clear Plexiglas panel across the top so operators can see outside of their "cubicle."

AFC offers both free-stranding Partitions and ones that are fixed to the floor or cart. Our Partitions can be configured to suit your application.

Features and Benefits

- One-inch sound-absorbing fiber with reflector on one side
- Cold-rolled 11-gauge steel frame with epoxy-powder-coated finish
- Prevents light interference
- Can be used as a tack board
- Multiple colors available (for frame colors, see page 87)
- ¼" thick free-standing base

Specifications

- Width: 36", 48", 60", 72"
- Height from the floor: 60", 72"

Optional

- ⅛" tinted or clear Plexiglas top
- Fiber top with removable lower metal panel and built-in continuous cable management
- Free-standing, mobile (2" twin casters), or fixed to the floor/cart

Standard Colors

A. Partition 60"W x 60"H ▶

B. Partition 60"W x 72"H with tinted Plexiglas top ▶

C. Partition 72"W x 72"H ▶

D. Partition 72"W x 72"H with tinted Plexiglas top ▶

E. Metal Partition fixed to the workstation

H. MobiCube™ 64"W x 48"D x 60"H

MobiCube™ panels are mounted on AFC's workstations and roll anywhere to instantly create a reading-room environment. These partitions use special hinges that allow you to position them at any angle from 0-90 degrees and that can lock into place using the two lockable casters.

The **MobiCube™** can either create a cubicle or act as a partition along the length of the room itself, without going through the complexities of installation or building codes, as all our products come fully assembled.

MobiCube™ Configurations

F. Partitions fixed to the floor

G. Partitions fixed to the floor:

- Light and sound barrier fiber top
- Removable lower metal panel allows back CPU access (see sidebar on page 87)
- Built-in continuous cable management

LCD Monitor Arms/ Holders

AFC Industries Inc. provides a variety of solutions for mounting your LCD monitor. We offer five categories: Desktop series, Z-series, Wall Mount series, EZ-series, and Ceiling Mount series.

Our Desktop series includes three types of VESA-compliant LCD monitor arms: grommet-mounted, base-mounted and clamp-mounted.

Combining style with functionality, the Z-series with articulating monitor arms allows you to position your monitor at any viewing level, angle, and depth from the viewer, providing maximum flexibility. The Z-series comes with a clamp that can also be wall-mounted.

Base-mounted electronically height-adjustable LCD monitor & Keyboard Arm # ERGODT-01

*Want to go from sit to stand at the touch of a button?
Not a problem!*

Install our ERGODT-01 on your existing table/work surface and within minutes you have a complete electronically height-adjustable work space!

Features

- Electronic height adjustment of 19"
- Fully articulating and retractable keyboard arm providing maximum freedom of motion
- VESA 75/100 compliant monitor mount with up/down tilt, right/left swivel and also rotation to go from portrait to landscape
- Independent vertical adjustable mounts for both the monitor and keyboard to set the desired spacing between the keyboard and monitor at 2-inch increments
- Rear shelf provides space to place CPU if required or just storage space for any of your other equipment

The EZ-series allows you to change the height of the monitors at the simple touch of a button. These **electronically height-adjustable** monitor arms also provide forward/backward and tilt adjustment, giving you maximum viewing options. The EZ-series can accommodate up to six LCD monitors (depending upon cart size and monitor weight) and can be mounted on AFC's workstations.

Note: The EZ-series is shown in the **Ergo Tier** chapter (see sidebar on page 14).

Ceiling Mount Series

The **Ceiling Mount** is a simple but sturdy ceiling-mounted LCD monitor arm that allows users to adjust the monitor at their required height and viewing angle. It also allows rotation and tilt positioning of the monitor. Cables can be wired through the tubing to be connected with the monitor.

Ceiling Mounts come with a standard VESA 75/100 plate. Non VESA-compliant monitor holders are also available for large-scale LCD monitors.

People all over the world seek safe ways to increase their personal and business productivity with minimal wear and tear on their bodies. Advances in technology have improved work output often at the expense of healthy bodies. Long hours seated at a computer or standing at workstations may cause the gradual onset of work-induced musculoskeletal disorders or computer-user's syndrome. What begins as a minor ache or pain often becomes a chronic disability, leading to extended physical therapy or surgery. These painful ailments interfere with everyday activity, burden our healthcare system, and diminish business profits and personal wealth, as employees miss work and are less productive.

AFC Industries provides a comfortable, cost-effective solution with ergonomic workstations and furniture.
